GETTING STARTED

1. Place your Necklace through the Necklace Clip on the back of the unit.

NOTE: For optimal performance, be sure to use the neck strap instead of attaching the clip to your shirt or pocket. The unit will need to have a centered placement to ensure your breathing space is completely covered.

2. Press the Power Button on the back of your unit to turn the unit ON or OFF.

BATTERY CHARGING

1. With the unit in the OFF position, place the supplied Mini-USB Cable into the Charging Port on the Bottom of the unit and the other end into your wall charger or powered USB port.
2. The Power Button will light up Red when charging and will turn off once the unit is fully charged.

CLEANING & MAINTENANCE

NOTE: For proper operation, the unit should be cleaned at least once per month.

1. Turn the unit OFF and remove it from your neck.
2. Use compressed air (canned air) to dislodge the particulates on the needle and in the unit.
3. Vacuum the Purification Output Nozzle and Fan Air Intakes one more time.

NOTE: Using a cotton swab or sticking anything into the ion emitter will damage the emitter and void the warranty. Under no circumstances should any object be inserted into the purification outlet.
